Shorter stays in Emergency Departments

The target is 95 percent of patients will be admitted, discharged, or transferred from an Emergency Department (ED) within six hours. The target is a measure of the efficiency of flow of acute (urgent) patients through public hospitals, and home again.

**Improved access to
Elective Surgery**

Ranking	District Health Board	Quarter four performance (%)	Change from previous quarter

All DHBs		81	▲

Faster cancer treatment

The target is 85 percent of patients receive their first cancer treatment (or other management) within 62 days of being referred with a high suspicion of cancer and a need to be seen within two weeks. Results cover those patients who received their first cancer treatment between 1 January to 30 June 2017.

Note: From 1 July 2017 the faster cancer treatment target goal will increase to 90 percent. Quarter one 2017/18 results will be against the 90 percent target.

**Increased
Immunisation**

Ranking	District Health Board	Quarter four performance (%)	Change from previous quarter
1	Auckland	95	▲
2	Hawke's Bay	95	▲
3	Canterbury	95	▲

All DHBs		92	▲

Increased immunisation

The national immunisation target is 95 percent of eight-month-olds have their primary course of immunisation at six weeks, three months and five months on time. This quarterly progress result includes children who turned eight-months between 1 April and 30 June 2017 and who were fully immunised at that stage.

**Better help for
Smokers to Quit**

Ranking	District Health Board	Quarter four performance (%)	Change from previous quarter

Raising healthy kids

The target is that by December 2017, 95 percent of obese children identified in the Before School Check programme will be offered a referral to a health professional for clinical assessment and family based nutrition, activity and lifestyle interventions. Data is based on all acknowledged referrals for obese children up to the end of the quarter from Before School Checks occurring in the six months between 1 December 2016 to 30 May 2017.

Health target results are sourced from individual DHB reports, national collections systems and information provided by primary care organisations.

This information should be read in conjunction with the details on the website www.health.govt.nz/healthtargets
